I understand that there has been a vote of no confidence brought to the board against the corporate secretary. As a member in good standing with Threshold, I move to have a vote of no confidence on the entirety of the board of Threshold.

Thus far, the board has not met the expectations of its membership and has left a majority of them in a constant state of confusion and/or frustration. The board seems to be too busy bickering, sucking up, and babysitting each other to do what is right for the membership while member volunteers have been securing our gates, ensuring our safety, bringing in new people, creating new parties, and holding new classes.

The board is supposed to be our leadership but it hasn’t felt like that. Once again, I move to have a vote of no confidence against the board of Threshold in its entirety.
